REQUEST FOR PROPOSAL (RFP) DOCUMENT FOR EMPANELMENT OF CA FIRM AS STATUTORY AUDITOR FOR A PERIOD OF THREE FINANCIAL YEARS FROM 2017-18 & 2018-19 AND 2019-20 OF VERKA DAIRY JALANDHAR.

1. INTRODUCTION

The Punjab State Cooperative Milk Producers' Federation Ltd, popularly known as Milkfed Punjab, came into existence in December 1973 to boost the dairy farming in the state. The objectives of the Federation were to provide a remunerative market to the Milk Producers in the State through value addition and effective marketing of the produce. The other objective was to provide technical inputs to the milk producers for enhancement of milk production.

Although the federation was registered much earlier, it took its current bigger role, in year 1983 when all the milk plants of the erstwhile Punjab Dairy Development Corporation Limited were handed over to Cooperative sector under Operation Flood, to give the farmers a better deal and customer's better products. The setup of the organization is a three tier system, Milk Producers Cooperative Societies at the village level, Milk Unions at District level and Federation as an Apex Body at State level. MILKFED Punjab has continuously advanced towards its coveted objectives well defined in its byelaws. Currently Milkfed Punjab has around 7500 village milk producers' cooperative societies, with over 4,00,000 members. These village level cooperatives work under 11 district milk producers' unions with 10 milk plants having a consolidated milk handling capacity of around 18,00,000 litres per day.

The Federation is mandated for the milk procurement aligned with quality processing of milk & its products as well as marketing them under the brand name "Verka". A trusted brand, Verka has become a household name and bringing newer products to the table to its loyal customers Milkfed has consolidated its brand strength by not only retaining its unique quality features of the existing products but has innovated and launched various new products.

The Federation also runs two cattle feed plants with a capacity of 500 MT's per day, One Frozen Semen Station and One Fodder Seed Processing Unit. MILKFED also manufacture different types of cattle feed like ISI Type II, High energy & By-pass etc. to meet the diverse requirement of milk producers. Besides, Milkfed has also introduced buffalo feed, which has rich fat contents and meets the nutritional requirement of buffaloes.

The empanelment of Statutory Auditor will be for a period of three financial years from 2017-18 & 2018-19 and 2019-20
